1. Cercetare	a. Articole <i>in extenso</i> în reviste cotate ISI Thomson Reuters (<i>articole în reviste cu factor de impact</i>) în calitate de autor principal	minim 10 articole	În analiză vor fi incluse articole <i>in extenso</i> originale și reviews. Autorul sau autorii principali ai unei publicații se consideră a fi oricare dintre următorii: a. Primul autor b. Autorul corespondent c. Alți autori, a căror contribuție este indicată explicit în cadrul publicației a fi egală cu contribuția primului autor sau a autorului corespondent d. Ultimul autor	18 lucrari Standard îndeplinit	
	b. (ISI) Factor cumulat de Impact autor principal (FCIAP)	minim 10	O revistă cotată ISI este o revistă pentru care Thomson Reuters calculează și publică factorul de impact în „Journal Citation Reports”. Factorul cumulat de Impact va fi calculat pentru articolele la care candidatul este autor principal (FCIAP= suma factorilor de impact ai articolelor publicate de autor în calitate de autor principal în reviste cotate ISI)	FCIAP = 29.676 Standard îndeplinit
