The online database of the library is accessible to teaching staff and Ph.D. candidates through VPN access and from home.

The **8 modern dormitories** available to the university are located in **2 student campuses**. Over **2,400 accommodation** places are made available to our students, with a total area of over **30,000 square meters**.

EDUCATIONAL OFFER
Medical education at "Iuliu Hațieganu" University of Medicine and Pharmacy is student-centred and provides the student, upon graduation, with theoretical knowledge and practical skills.

► EXPECTATIONS ► EXPERIENCE ► EXCELLENCE

In order to become a student at our university, the candidate will have to pass a demanding admission competition. The modern, student-centred curriculum, adapted to European models, aims to customise vocational development according to the skills and aspirations of each student.

The evaluation of students, from midterm verification tests to the Bachelor's degree examination, takes into account both the theoretical and the practical part. The applicative nature of our didactic system is an additional advantage of our vision of training future health specialists.

The fundamental subjects are developed in specific centres, and the clinical education takes place in the famous hospitals of Cluj. Thus, starting with the third year, students are trained in prestigious university clinics, where they come into direct contact with patients.

DID YOU KNOW THAT...

"Iuliu Hațieganu" University of Medicine and Pharmacy is among the few universities in the world that has study programmes with instruction in 3 languages – Romanian, English and French? All are highly appreciated by our students and graduates, as well as their employers.

Our university has the most foreign students from all universities of medicine in Romania.

All diplomas awarded by "Iuliu Hațieganu" University of Medicine and Pharmacy are automatically recognized throughout the European Union, based on the European Credit

Transfer System (ECTS), which gives our graduates the advantage of integration into the labour market and allows them to easily adapt to various public or private health systems.

Also, our Faculty of Medicine is the only one in Romania with diplomas enjoying indefinite recognition by the Ministry of Health of the State of Israel.

Top 5 aspects that our international students appreciate *:

- ▶ working with small groups of students
- ▶ young and efficient teaching staff
- ▶ partnership relationship between teaching staff members and students
- ▶ Problem-Based Learning (PBL)
- ▶ award of performance scholarships for international students

* from the satisfaction survey applied among students in 2019

FACULTY OF MEDICINE

The Faculty of Medicine has modern facilities, laboratories equipped so as to correspond to an optimal training of future physicians. The educational process within "Iuliu Hațieganu" University of Medicine and Pharmacy has an applicative nature, this being an asset of Cluj medical education.

With an expanding infrastructure – spacious amphitheatres, European-level laboratories, access to high-performance clinics – our faculty is the most representative in Transylvania, listed in the A category at national level. Within the Faculty of Medicine, starting with the third year of study, students are trained in university clinics.

Undergraduate educational offer:

Specializations	Length of studies	Number of ECTS credits	Instruction language
Medicine	6 years	360	Romanian, French, English
General Medical Nursing	4 years	240	Romanian
Radiology and Imaging	3 years	180	Romanian
Balneo-Physio-Kinetotherapy and Recovery	3 years	180	Romanian

The Faculty of Medicine also offers its graduates the possibility to continue their university studies through accredited programmes in Master's, Doctoral or postgraduate degrees.

FACULTY OF DENTAL MEDICINE

Based on a European curriculum, the Faculty of Dental medicine trains specialists who provide specialized medical care. Through our research activity, our specialists contribute to the development of theoretical and practical knowledge in the field of dentistry.

The specialty subjects are introduced from the first year of studies. In the early years, clinical activities are studied on simulators, in line with trends in the development of dental education worldwide. Students are introduced from the beginning of their studies to the atmosphere of the dental practice, and clinical activities are carried out early, in parallel with those of basic training. The courses take place in an interactive system, through topical teaching methods, in modern amphitheatres.

Undergraduate educational offer:

Specializations	Length of studies	Number of ECTS credits	Instruction language
Dental Medicine	6 years	360	Romanian, French, English
Dental Technology	3 years	180	Romanian

Graduates of the specializations offered by the Faculty of Dental medicine can continue their university studies in Master's, Doctoral, Residency or postgraduate degrees.

FACULTY OF PHARMACY

The Faculty of Pharmacy provides training for professionals and researchers in the pharmaceutical field, contributing through teaching and research activities to the development of knowledge related to the drug and its use. It is a faculty that stands out at national level through its constant concern for the assimilation of the latest knowledge and the newest learning methods, but also for the integration in the European training and research networks. Its graduates easily find their place in international research or professional structures.

Undergraduate educational offer:

Specializations	Length of studies	Number of ECTS credits	Instruction language
Pharmacy	5 years	300	Romanian, French, English
Nutrition and Dietetics	3 years	180	Romanian

The Faculty of Pharmacy also offers Master's, Doctoral and Residency programmes and also lifelong vocational education courses.

MASTER'S DEGREE STUDIES

At University of Medicine and Pharmacy "Iuliu Hațieganu", the master's degree programmes developed in recent years allow obtaining complementary competencies to medical or pharmaceutical studies. The Master's degree programmes were designed to offer the possibility of insertion of graduates with other specializations than medical or pharmaceutical, graduates of the faculties of economic – management studies, biology, computer science etc.

Master's studies are interdisciplinary studies, lasting 2 or 4 semesters and are integrated in several areas of specialization. The diversification of the educational offer of "Iuliu Hațieganu" University of Medicine and Pharmacy also included the development of Master's degree programmes organized according to the Bologna criteria.

DOCTORAL STUDIES

The Doctoral School is an institutional structure created in the university in 2005. It is responsible for structuring and developing the annual curriculum of advanced university training, validating research projects within the doctoral studies, assessing the quality and compliance with the university standard for Ph.D. theses and endorsing public defence of completed theses. The Board of Directors of the Doctoral School identifies and highlights the cores of trained researchers, who can contribute to the achievement of ultimate performance in modern research.

For additional information, please access the university's website, www.umfcluj.ro, *Doctoral Studies* section.

Additional information can be found on the university's website, www.umfcluj.ro, *Master's Degree Studies* section.

RESIDENCY PROGRAMMES

Residency is the form of postgraduate training offered to graduates of the faculties of medicine, dentistry and pharmacy to obtain a medical or pharmaceutical specialty. The duration of the residency differs, depending on the specialty, from 3 to 6 years. Through its teaching staff also activating in specialized medical nursing, "Iuliu Hațieganu" University of Medicine and Pharmacy is involved in training through residency.

The university graduates were constantly on the highest positions in the national competition for admission to residency, and the specialists trained in the clinics of Cluj are appreciated, both in the country and in the medical systems abroad.

The university training offer in medical and pharmaceutical specialties includes all specialties from the current nomenclature of the Ministry of Health.

More details can be found on the university's website, www.umfcluj.ro, *Residency* section.

INTERNATIONAL RELATIONS

As a student at "Iuliu Hațieganu" University of Medicine and Pharmacy, you will have countless clinical, research or university experiences through research and international student mobility programmes.

As part of "Iuliu Hațieganu" University of Medicine and Pharmacy experience, you have the opportunity to study in other countries for a semester or for an entire academic year, because our university has concluded interinstitutional agreements with universities in Portugal, Spain, Great Britain, France, Germany, Belgium, Austria, Italy, Greece, Turkey, etc.

You also have multiple traineeship opportunities in your field of study, financed through the **ERASMUS+ programme**. Under the European Economic Area (EEA) programme, students of any level of study (Bachelor's, Master's, Doctorate degrees) can benefit from mobility scholarships in Iceland, Liechtenstein and Norway, in order to improve their skills and competences.

"My ERASMUS experience in Cluj was great, the city is very lively and the cost of living is really low, which allows me to do a lot of nice things. In terms of teaching, professors are always available and most of them really nice and understanding. I was able to discover part of the Romanian culture and a country very «rich» by its culture, its nature and its people".

Eliot N. – Faculty of Pharmacy – University of Bourgogne Franche-Comté (Dijon), Erasmus student at UMFH, 2019-2020

Erasmus Stories

"The Erasmus+ experience is probably one of the most beautiful challenges of student life. It is a chance to integrate into a whole new environment, to travel with friends, to build new professional relationships and maybe even make friends for life. It is an experience that changes you for the better, teaches you to fight for what you want, opens up new horizons, and most importantly, the moment you return to your homeland, you will know that somewhere in this world you have a second home you can return to at any time. Anyone who has a chance to get an Erasmus scholarship must take full advantage of it and be sure that no matter how many difficulties they encounter along the way, everything will (patiently) find a solution".

Anamaria F. – Erasmus+ student in Zaragoza, 2019-2020

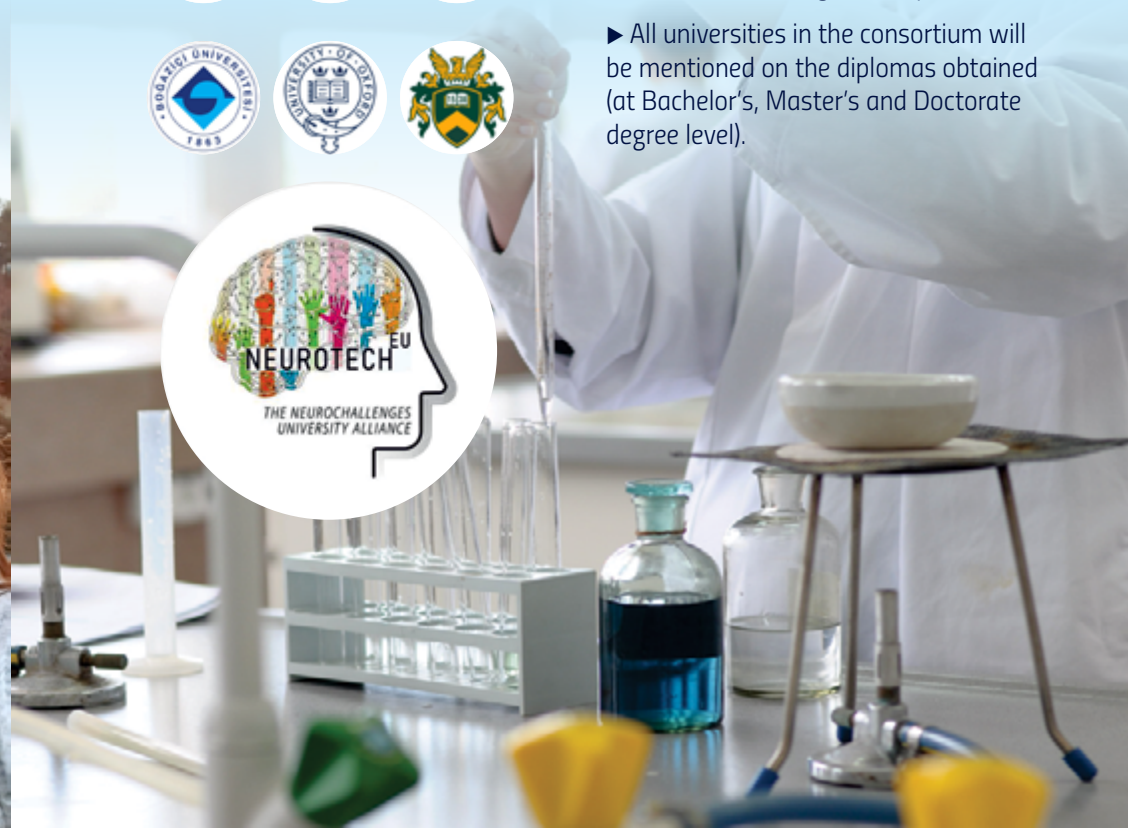

"Iuliu Hațieganu" University of Medicine and Pharmacy is part of the **NeurotechEU** alliance of European universities, together with: Oxford University (UK), Karolinska Institutet (Sweden), Radboud University (Netherlands), University of Bonn (Germany), Miguel Hernández University (Spain), Boğaziçi University (Turkey) and Debrecen University (Hungary).

DID YOU KNOW THAT...

The alliance provides, among other things, the following benefits for students:

- ▶ Common access to teaching resources, research facilities and digital libraries
- ▶ Increased mobility
- ▶ Joint research projects
- ▶ Interconnected digital campuses
- ▶ All universities in the consortium will be mentioned on the diplomas obtained (at Bachelor's, Master's and Doctorate degree level).

A UNIQUE STUDENT EXPERIENCE

HOW TO APPLY?

"Iuliu Hațieganu" University of Medicine and Pharmacy adopts its own methodology for the selection of students, applying a transparent policy of their recruitment.

The level of training is the only criterion used in selecting candidates for any of the specializations of the university.

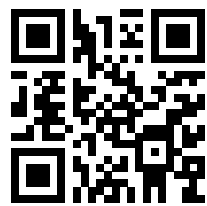

The evaluation of the candidates' performances in order to be admitted to studies is done in two ways:

a. by written admission competition, in Romanian, for the Romanian citizens, the citizens of the European Union, of the EEA, of the Swiss Confederation, who opt for the unique competition held in July. Through this competition, places budgeted by the Romanian

state or places with a tuition fee can be accessed. Information regarding this method of admission can be found on the university's website, www.umfcluj.ro, in the Admission section.

b. by a competition for the assessment of candidates' academic performance and personal achievements, in accordance with the data contained in the personal application file, for citizens of the European Union, the EEA, the Swiss Confederation and third countries, who opt for this method of admission. In this category also stand the candidates who opt for the Admission of Romanians everywhere.

The complete methodology for the competition and other information can be found on the website dedicated to the admission of international candidates www.joinumfcluj.ro.

OUR ALUMNI

"A career in the medical field is not a simple job; it is, rather, a mission that you must assume responsibly from the beginning. As long as you know who you are and know what you want, the sky is the limit".

Adela Maghear – Senior Scientific Policy Adviser in the field of health policies (Brussels)

A WARM WELCOME

"Iuliu Hațieganu" University of Medicine and Pharmacy, in partnership with the student organizations English Medical Student Association (EMSA) and Corporation Médecine de Cluj (CMC), organizes at the beginning of each academic year the *Seminar for the Integration of International Students (Welcoming Days)*.

It is an action that, beyond saying "welcome" to the students admitted in the first year, aims to facilitate the integration of our university students, who will live in Cluj-Napoca in a multicultural and multi-linguistic context, and to help young people from all over the world in carrying out the administrative steps involved in settling in Cluj-Napoca for the duration of university studies.

The program includes an *Open Day* with a visit to the university, a guided tour of the city, meetings with deans of faculties, workshops of initiation into the Romanian language and culture, but also administrative sessions, in which students receive information about the residence permit, respectively residence registration in Romania, about home insurance, about the health system in Romania as well as other useful information.

In the same admission session, candidates can opt for only one type of admission.

STRUCTURE OF THE ACADEMIC YEAR

The study programme of an academic year is structured on two semesters, of 14 weeks each, followed by the examination session, with the duration of 3-4 weeks.

**THE LEARNING PROCESS**

The study programmes are harmonized with the European provisions regarding the mutual recognition of diplomas in the European Union, and the analytical programmes are constantly updated and modernized.

Medical and pharmaceutical higher education takes place in a linear system (except for the Medicine specialization, where it is linear for 1st-3rd years and modular for the 4th-6th years).

The subjects are grouped into: compulsory, elective and facultative. The study of compulsory subjects offers the possibility of assimilating basic knowledge, while elective and facultative subjects aim to deepen knowledge in a particular field and customise vocational development, depending on the skills and aspirations of each student.

Studies and activities are quantified and equated on the basis of the European Transferable Credit System, also known as ECTS.

STUDENT EVALUATION

Verification of students' knowledge is done through oral, written examinations and practical tests. The assessment is made with grades from 1 to 10, the minimum passing grade being 5, both at the practical examination and at the written examination. A student can take an examination no more than 3 times in an academic year, with 4 sessions available.

Study subjects are assessed using ECTS, depending on the number of courses and practical activities. Each year of study is allocated 60 credits.

FACILITIES

The university has lecture halls and rooms for the development of works, equipped with complex material resources, which include specific apparatuses and equipment, as well as specialized laboratories and libraries, which allow the development of a modern educational process.

The acquisition of practical skills is done in the Centre for Experimental Medicine and Practical Skills, the first of its kind in Romania. The centre offers learning and training opportunities for all levels of medical practice, in most disciplines, in order to increase patient and medical care safety.

**"Iuliu Hațieganu" University of
Medicine and Pharmacy ALUMNI**

"UMFIH – an example of good organization, in which students and student organizations work together with the administrative apparatus of the university to make students' lives easier and better. Thus, students can focus on their development as health professionals".

Delia Gologan – advisor to the
Department of Education and
Research – Presidential
Administration of Romania

HEALTHCARE

As a student at "Iuliu Hațieganu" University of Medicine and Pharmacy, you can benefit from free medical services at our student clinic. If you need a medical consultation, you can contact the student's physician.

For European students, the European Health Insurance Card is a free card and covers your medical costs in Romania, depending on the price at which you would be covered in the country of origin.

Non-European students are advised and supported by Cluj Health Insurance Fund, which facilitates their registration in the Romanian health insurance system.

**Centre for psychological
counselling and career guidance**

The first months in a new country can be difficult for anyone. If you think you need someone to talk to, who can give you objective advice in a professional way, you can go to the university psychologist for students. Also, here you can find psychological support for choosing the future medical specialty you will follow.

STUDENT ORGANIZATIONS

The students of the three faculties within "Iuliu Hațieganu" University of Medicine and Pharmacy have their own organizations and are represented in the Teaching Councils and in the Senate.

- Medical Student Organization – OSM
- Dental Student Organization – OSS
- Pharmacist Student Organization – OSF

The internationalization of medical and pharmaceutical studies has determined the association of foreign students in organizations that represent them and that facilitate their integration in the university environment and in the community.

- English Medical Student Association (EMSA)
- Corporation Médicale de Cluj (CMC)

VOLUNTEERING

"Iuliu Hațieganu" University of Medicine and Pharmacy students carry out various volunteer activities. The university policy encourages volunteering as a means of training. Volunteer activity is coordinated by student organizations. One of the most beneficial forms for students and the local community is the activity of the Mobile Emergency, Resuscitation and Extrinsic Service – SMURD. Students effectively participate in providing emergency medical care as volunteer paramedics, being part of SMURD crews on duty.

"Iuliu Hațieganu" Student Entrepreneurship Association (ASAIH) is a new concept proposed by our university, whose purpose is to promote and encourage the idea of entrepreneurship in medical and health areas, thus preparing young people to become new leaders and innovators of the medical field.

The internet of things, nanotechnologies, food science, e-Health are just some of the areas in which young students can contribute through innovative ideas and original approaches.

SCIENTIFIC CIRCLES

The over 20 student scientific circles aim to bring together students passionate about a particular field encountered in the years of study and to deepen various topics under the guidance of a professor. They work in addition to the many of the university's subjects and are true training centres for young people who want to develop their research skills. The results of the activity carried out by the students in these scientific circles have been validated through the numerous prizes won in national and international competitions.

**"Iuliu Hațieganu" University of
Medicine and Pharmacy
ALUMNI**

"The role of volunteering for me, especially during my student days, meant «The place where I left a part of my soul... the place where my dreams, his dreams, her dreams... became ours, then we worked for them... discover by yourselves the beauty of building a team, of investing in people and their ideas!»".

Eduard Bonci – assistant professor,
Ph.D., resident physician

**"Iuliu Hațieganu" University of
Medicine and Pharmacy
ALUMNI**

"The years spent at UMFIIH helped me develop my ability to study and understand scientific articles, I developed a habit of learning and reading daily, and of course, I learned the basics of biochemistry, anatomy, and nutrition."

Paul Potora – graduate in Nutrition and Dietetics and Master's degree in Nutrition and Quality of Life, founder of Core – Personal Training and Nutrition

**"Iuliu Hațieganu" University of
Medicine and Pharmacy
ALUMNI**

"Through the SMURD shifts on duty, I came to know very clearly what I wanted to do and this helped me to be more selective and precise in my training. The decision to work in SMURD has laid a great foundation in my training, and I owe a lot of what I am today to the people there: volunteer students, physicians and firefighters alike".

Mihai Răzvan Oprea – volunteer at Cluj SMURD, paramedic in the intervention crews on duty on the mobile intensive care ambulance, volunteer of Cluj County Ambulance Service

CULTURAL AND SPORTING ACTIVITIES

MedStrings Orchestra and UMF Choir – medical students passionate about music, with a wide repertoire, from cult music to film music.

Medfolk Cenacle brings to the fore the genre of folk music and poetry.

Artistic Anatomy helps you study human anatomy through drawing, in different techniques on living models, 3D or dissections.

"Iuliu Hațieganu" University Sports Association – In the sports centre of the university you can recreate through volleyball, basketball, football, table tennis or you can do sports dance and aerobic gymnastics.

Sports for Health organizes sports events and electronic game competitions, currently known as e-sports.

Dance Your Way To Health – you can learn new dance styles, both to get to know your colleagues, but also to always be healthy and with a smile on your face.

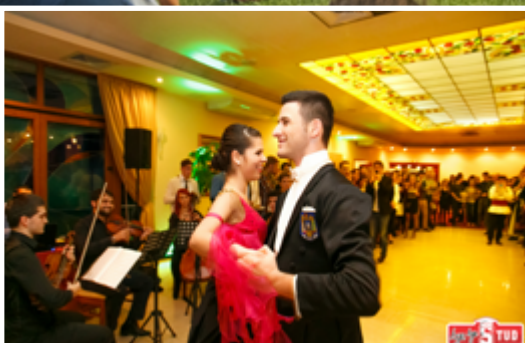

International exchanges – you can do medical training and research, for a month, during summer holidays. Excursions and intercultural activities will give you the opportunity to discover the spirit of Cluj and Romania, to know our culture and to make beautiful and lasting friends.

DID YOU KNOW THAT...

... our university has the most attractive and original way to celebrate graduation? The famous serenades have an old tradition in "Iuliu Hațieganu" University of Medicine and Pharmacy. At the end of their studies, before the last session, the graduates go for a week to all the university clinics where they carried out their traineeships and practical works and sing songs, old or in the charts, adapted with lyrics composed by them. The lyrics generally tell about the years spent in faculty, about professors, subjects and the moments that marked their student life.

... the graduation ceremony has a unique venue? This event, which marks the end of studies, takes place on the largest stadium in Transylvania, and the most important and emotional moment is the taking of the Hippocratic Oath. Of course, you will be able to have an unlimited number of guests with you, because all those interested can participate in the festivity.
